
BRAND IDENTITY SYSTEM

Typography System V1.0

Three voices. One system. Every typographic decision in ELO materials derives from this document — size, weight, tracking, leading, and voice assignment. No improvisation.

01 — THE SYSTEM

Three voices. Precisely assigned.

VOICE 01 — DISPLAY

Space Grotesk

ELO

Headlines, section titles, cover copy, UI headings, pull quotes. The dominant voice. Sets the institutional tone.

VOICE 02 — BODY

Inter

Tactical land acquisitions operator focused on redevelopment outcomes.

Running copy, labels, captions, UI text, metadata, footnotes, doctrine body text. The neutral voice.

VOICE 03 — DATA

DM Mono

C-2026-001

39.9870° N

75.1624° W

\$148,000

Circuit IDs, coordinates, measurements, dates, financial figures, code strings, reference numbers. The technical voice.

CIRCUIT · C-2026-001 · PHILADELPHIA, PA

BODY

Eastern Land Operations is a tactical acquisitions operator focused on redevelopment outcomes at scale. Institutional discipline applied across every circuit — from initial intelligence through close.

DISPLAY (48PX+)

letter-spacing: -0.025em

Land Operations

Tighten aggressively at large scale. Display text never tracks out.

HEADING (20–47PX)

letter-spacing: -0.02em

Site Intelligence

Tight but not compressed. Reads as authoritative, not editorial.

SUB-HEADING (14–19PX)

letter-spacing: -0.01em

Zoning & Redevelopment Path

Minimal negative tracking preserves readability at smaller scale.

ALL-CAPS USE ONLY

letter-spacing: 0.12–0.18em

EASTERN LAND OPERATIONS

Only Inter carries all-caps labels. Space Grotesk in all-caps is rare — use only for single-word identifiers (e.g. "ACTIVE").

03 — VOICE 02

Inter. Body & Labels.

ALL-CAPS LABELS (PRIMARY USE)

letter-spacing: 0.16-0.18em

CIRCUIT · C-2026-001

Inter is the primary carrier for all-caps labels. Max label length: 18 characters. Never sentence-case a label.

BODY COPY

letter-spacing: 0 (default)

Tactical acquisitions. Long horizon.

Never track out body copy. Natural spacing at every size. Line-height: 1.6-1.7.

CAPTIONS / METADATA

letter-spacing: 0.02em

Source: Philadelphia Land Records · 2024

Slight positive tracking at caption scale (11px and below) improves legibility without forcing all-caps.

VERSION / DOCUMENT IDS

letter-spacing: 0.08-0.10em

V1.0 — OPERATIONALLY APPROVED

Version strings and status labels use Inter 600 + moderate tracking. Not DM Mono — these are status signals, not raw data.

COORDINATES & MEASUREMENTS

39.9870° N

75.1624° W

Lot: 2,284 sf

Setback: 8.5 ft

All numeric/spatial data from field operations. Preserves data integrity and precision signal.

FINANCIAL FIGURES

ARV \$385,000
MAO \$148,000
GAP \$237,000
ROI 37.2%

Aligned columns in DM Mono. Fixed-width spacing creates precision table behavior without actual tables.

07 — RULES

Locked behaviors. No exceptions.

DO

Use DM Mono for every Circuit ID, coordinate, figure, and reference number

Track all-caps Inter labels at 0.16em minimum

Track display Space Grotesk negatively at all sizes above 20px

Use Inter 400 for all running body text — no exceptions

Maintain 1.65+ line-height on all body copy

Keep all-caps labels under 20 characters — break into two lines if longer

Use Space Grotesk 700 for all primary headlines and cover copy

DO NOT

~~Italicize Space Grotesk in any brand material~~

~~Use Space Grotesk for body copy or labels~~

~~Use DM Mono for headlines, body text, or labels~~

Mix positive and negative tracking within the same element

Use Inter in all-caps for anything longer than a label

Track body copy out — Inter at 0 tracking is the rule

Use weights above 600 in Inter — that role belongs to Space Grotesk

Introduce any fourth typeface for any reason

ELO Typography System — V1.0
